Marici talked with Gary Kraai and the issue the Hocket's were having with their water has been resolved. An outside family person took water samples and they all came back in compliance.

The fuel charges that the managers will be reimbursed for will be charged to the account "Machine Hire". Lynn will be consulted on if there needs to be some type of insurance since the airplanes are being used to read meters.

Marici ask about sending out a call-em-all regarding the maximum usage is 20,000 gallons. There have been some members who have gone over that amount the last two months.

The bacti sample at the springs continue to come back with "present coliform/absent E. coli." Not sure how this is going to effect the testing for the springs to be classified as groundwater.

Discussed fencing around the Hamilton Springs. Will need to get measurements of how much fence will be needed and what would need to be done to put up fence.

Meeting adjourned.

Board members present were Mark LeValley, Dave Young, Joanie Cherp and Bill Carpenter.
